

The **BIG** solution to your supply chain needs

BIG

International Warehousing, Inland Trucking and Multi-National Intermodal Services

Through our direct foreign licensing or from our international alliances, MEGA can provide worldwide point of origin to final store shelf multimodal freight management services to & from anywhere in the world. For example, MEGA connects China manufacturers to Europe via the rail and creates transshipment centers in Dubai or Hungary for optimal customer service, replenishment and distribution efficiency. With facilities and alliance partnerships in over 140 countries operating on every continent of the globe, let MEGA coordinate, plan and make multiple recommendations for a customized, cost effective and advantageous overseas supply chain network.
