

The **BIG** solution to your supply chain needs

Cargo Insurance and other Value Added Trade Services

Cargo Insurance covers loss and/or damage during the movement of cargo from one port/country to another. Sendings can be by sea, air or inland. Policies are tailored to suit individual Insured's needs. Coverage can be provided for all risks or named perils basis.

Global Trade Credit and Political Risk: Provides coverage to protect U.S. and Canadian-based multinational companies doing business overseas from losses resulting from various political perils and the risk of non-payment of a company's accounts receivable.

Trade Credit Insurance: Trade Credit Insurance protects the accounts receivable of a policyholder against a customer default due to financial or political events.

Political Risk Insurance: Political Risk Insurance helps investors, financial institutions and corporate clients protect their investments in overseas markets against unpredictable losses due to specified political risk perils.
