

The **BIG** solution to your supply chain needs

Big

Intellectual Property (IP) Enforcement

At MEGA, our manufacturing clients are able to retain MEGA IP Enforcement Services allowing our customers to fully enjoy and profit from the fruit of their business innovativeness. MEGA IP enforcement services are designed to help our clients avoid infringement cases before it adversely affects the profitability of their business. It is our belief that an ounce of prevention is better than an ounce of cure, and taking this to heart, a complete system has been established by MEGA to respond to all of our clients' needs. MEGA IP Enforcement Services are divided into three (3) stages...

STAGE 1

Field monitoring of clients, suppliers and competitors in that country. Advising possible violators of IP Infringement

STAGE 2

Taking legal actions on client's behalf to stop IP violators if infringement activities continue. Assisting client to take any remedial measure and procedures with relevant IPR Government Agencies.

STAGE 3

Enforcement of court decisions using MEGA connections in Central, Provincial and Local Governments. We will make sure that ALL court decisions are enforced!
