

The **BIG** solution to your supply chain needs

Big

Pre-Shipping Freight Cost Analysis & Tariff Procurement

MEGA needs to gather two weeks worth of shipping invoices in order to run them through our MEGA International & Domestic discount programs. Within 10-days, MEGA will provide back to our customers a FREE Cost Saving Analysis showing them the tremendous guaranteed savings that MEGA will provide (*usually 12-30% in annual savings realized by MEGA Customers*).

MEGA can keep your incumbent carrier(s) or MEGA can farm your contract out to all major and proprietary carriers in order to create the absolute lowest rates for you and your company. Once MEGA procures your rates, everything will stay the same for you operationally. All carrier negotiations are done FREE of charge and there is absolutely no membership fee.

MEGA does not control your billing or manage your day to day dealings with carriers unless you request us to do so.
